

INTERNATIONAL SCIENTIFIC & PRACTICAL CONFERENCE

4th edition

March 27-28, 2025

SUSTAINABILITY AND ECONOMIC RESILIENCE
in the context of
global systemic transformations

Dear academics & practitioners

We invite you to 4th edition of the International Scientific and Practical Conference "Sustainability and Economic Resilience in the Context of Global Systemic Transformations".

The scientific conference aims to address the challenges and solutions related to sustainability and economic resilience at both national and global levels. In a global economic environment marked by rapid and unpredictable transformations – ranging from climate change and financial crises to technological innovations and geopolitical tensions – the discussions will explore the mechanisms through which economies and businesses can withstand and thrive amid these challenges.

The conference will bring together theoreticians and practitioners from various fields, including economics, business, technology, and public institutions, to discuss how sustainability strategies can be integrated into economic policies and business decisions. Special attention will be given to economic resilience, understood as the capacity of economic systems to adapt and recover quickly after major disruptions.

The conference will be held on **March 27-28, 2025** at the Academy of Economic Studies of Moldova and simultaneously online, via Zoom platform.

Official working languages: English and Romanian.

Publication Opportunities:

- **Conference proceedings**

See the conference 3rd edition collection: https://ase.md/files/conferinte/econsec/EconSec_Proceedings_2024.pdf

- Eastern European Journal of Regional Studies" (EEJRS) <https://csei.ase.md/journal>

Note: The conference proceedings will be published exclusively in English. Therefore, only manuscripts submitted in English will be accepted for publication.

Conference Panels and Key Discussion Topics:

Panel 1: Economic Resilience: Theoretical Approaches and Practical Strategies

This panel will explore how national and global economies can adapt and recover from major systemic crises such as climate change, technological advancements, economic crises, and geopolitical tensions. The discussions will focus on identifying and implementing policies and strategies that can strengthen economic resilience and ensure long-term stability.

Panel 2: Advancing Business Sustainability: Innovation, Technology, and Strategic Adaptation

This panel will focus on how companies can become more sustainable and resilient by integrating innovation and advanced technologies. Business solutions that enable economic growth under conditions of sustainability by reducing negative environmental impacts and improving resilience to unforeseen changes will be discussed.

Panel 3: Sustainable Social Development: Equity, Inclusion, and Community Resilience

This panel will explore the social dimensions of sustainability, focusing on social equity, inclusion, and strengthening the resilience of communities in the face of economic and social challenges. Discussions will cover how policies and strategies can promote a fair and equitable social environment capable of withstanding global changes.

Panel 4: Economic and Informational Security in the Age of Digitalization and Globalization

This panel will address the challenges related to economic and informational security in the context of rapid digital transformations and globalization. Topics will include economic risks generated by technological dependency, cyberattacks, and informational vulnerabilities, as well as the protective measures and security strategies necessary to ensure the stability and resilience of economies.

Participation:

Researchers, academics, and practitioners with expertise in the field are welcome to participate. The conference is open to professionals from universities, research institutions, businesses, and policy-making organizations who are conducting research or developing practical solutions related to sustainability and economic resilience in the context of global systemic transformations.

Two types of participation are allowed:

- >> participation with article and presentation
- >> participation only with presentation

Conference fees:

No conference fees

All accommodation expenses to be covered by the participants

At request, the organizing committee could assist with bookings

Registration form:

<https://forms.gle/iPT3D3YdJRYmqroN7>

Registered persons will receive by email the program, the link to the ZOOM conference, the certificate of attendance.

Note: PhD students may participate with presentations and articles either with their scientific coordinator or individually. For individual submissions intended for publication in the proceedings, a recommendation letter from the scientific coordinator confirming their approval of the article and recommending it for publication must be attached.
